SEASON REPORTS FOR THE MONTH OF OCTOBER 1875.

Bangalore District.

Rain.—There has not been much rain in the District during the month, and consequently but few tanks received water, and that too in small quantities.

Crops.—Reported to be generally in fair condition, though in some parts the dry crops look parched from want of rain. Vaisak paddy, Bengal and horse-gram and inferior sessamum were sown, and the ragi crop was harvested in a few places.

Health.—Generally good; but cholera has been prevalent in the Devanhalli, Kankanhalli, Magadi and Closepet Taluks; and a few cases also occurred in the Bangalore and Hoskote Taluks.

Mortality.—The deaths among the people have numbered 668 against 501 in September, the increase being attributable to the prevalence of cholera and other diseases.

Cattle.—A less number of cattle were lost in the month under report than in the month previous, *i.e.* 1,568 against 2,265, 231 being from murrain, 1,206 from other diseases and 131 killed by wild beasts.

Lands.—Lands assessed at Rs. 575—9—5 were taken up for cultivation, while none were resigned during the month.
